

Article for SMQ Newsletter:

## TRAINING RESOURCES WITHIN SMQ GUILD

The SMQ Guild needs to establish a record of teacher resources within the guild. The purpose is to evaluate classes that can be taught within the guild, rather than going outside for instructors. If we can recruit Instructors within the guild, we can keep the cost of classes lower. If you are an instructor for any skills to do with projects, quilting, etc., please provide the following information:

1. Name and contact information
2. Course name(s) with a brief description of each course.
3. What is the level of training: beginner, intermediate, or advanced?
4. How much time is required for the class: three hours, six hours, or number of days?
5. How much do you charge for the training?
6. Supply list

If the above information is available at a website, just point me in the right direction. Provide this information to Roberta Jones at [sjrjci@comcast.net](mailto:sjrjci@comcast.net).

If you have any questions, please call me. My goal is to have this put together by the end of the year, so you will need to forward the information to me by

1 November 2009.
