

## Easy Napkin Pattern

- Using an 18" pizza pan, trace circle onto freezer paper and cut in half.
- Using the freezer paper template and two different fabrics, cut out 8 napkins (16 half circles).
- Place two half circles right sides together and sew - leaving  $1\frac{1}{2}$ " opening. Turn inside out.
- Press well and topstitch with a  $\frac{1}{8}$ " seam to close the opening. You should now have a half circle napkin.
- To fold into tree: measure  $5\frac{1}{2}$ " from the left edge (flat side). Then fold accordion style until you get the tree.

1 yard of 2 fabrics will make 8 napkins.
