

# I SPY QUILT for 6.5 inch squares (no cornerstones)

Finishes 39 x 46.5

**We use this pattern for I spy blocks. The sashing is solid and helps to unite all the different I spy blocks.**

Yardage: Sashing  $\frac{3}{4}$  yard

Squares if using all the same color: 1 yard

## CUTTING

Sashing is cut 2 inches wide. Cut 7 strips 39.5 x 2 for horizontal sashing. **(no cornerstones)**

Cut 6 more strips 2 inches wide and then cut these strips into 36 pieces 6.5 x 2 for vertical sashing

Center blocks are 6.5" You will need 30.

**SEWING:** We recommend laying out the blocks and looking at them before sewing to balance and distribute the designs.

Be careful about directional prints. Sew vertical sashing in rows to I spy squares. It should look like this with all pictures oriented the same direction and short sashing on the side.

Then sew in the long strips for horizontal sashing. It will take a little care to align the verticals so that those columns look straight.

I SPY for 6.5 inch squares NO Cornerstones

Overall Size: 39.00 by 46.50 inches
